

PRESETTING – INSTRUCTIONS

What are Presets?

Specific answers to questions can be set to always answer based on certain conditions such as when a loan is created or when certain guides are selected. There may be presets that are considered 'corporate' presets that load for all loans, or presets that can be set for certain types of loans such as Conventional, FHA, VA, USDA, or there may be presets for certain Investors.

Presets are usually pre-determined and preset by your CreativeVisions Supervisor. Each firm should designate one person to be responsible for their firm's settings in CreativeVisions.

Questions available for presetting are provided in 'Visions'. Visions are lists of questions. There are Preset Visions that contain questions that can be preset with answers, and there are Data Entry Visions that contain questions to answer in the data entry questions. These instructions will pertain to Preset Visions.

To access the Preset Visions - load a Test loan, click on the Set-Up tab, then click on the Presets tab. The Preset Visions will be listed under the 'Guide' that loads the visions such as 'I would like to buy a home', or 'Conventional Fixed', or other Guides.

The screenshot displays the CreativeVisions software interface. The top menu bar includes 'File', 'View', 'Window', and 'Help'. Below the menu is a toolbar with various icons. The main window is divided into several sections:

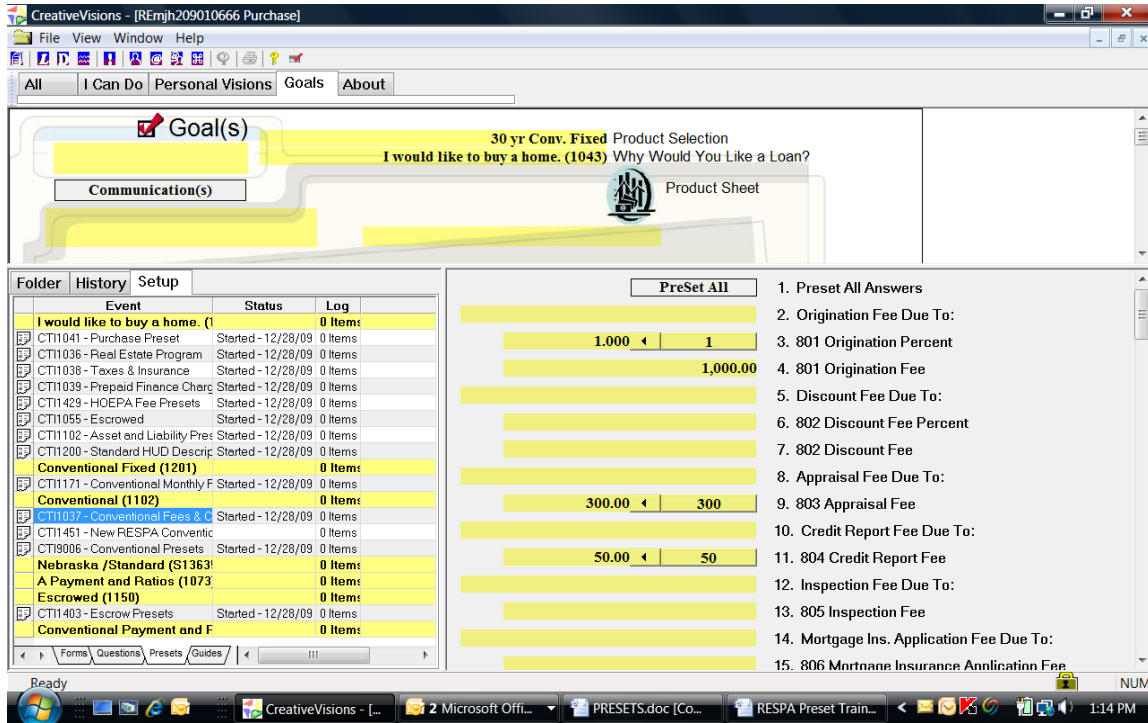

- Goals(s):** A section with a red checkmark icon, containing a yellow box with the text "30 yr Conv. Fixed Product Selection" and "I would like to buy a home. (1043) Why Would You Like a Loan?". Below this is a "Communication(s)" button and a "Product Sheet" icon.
- Folder History Setup:** A table listing various preset events with columns for Event, Status, and Log.
- Questions Quality Control Distribution:** A section for managing questions, currently empty.

The table in the 'Folder History Setup' section contains the following data:

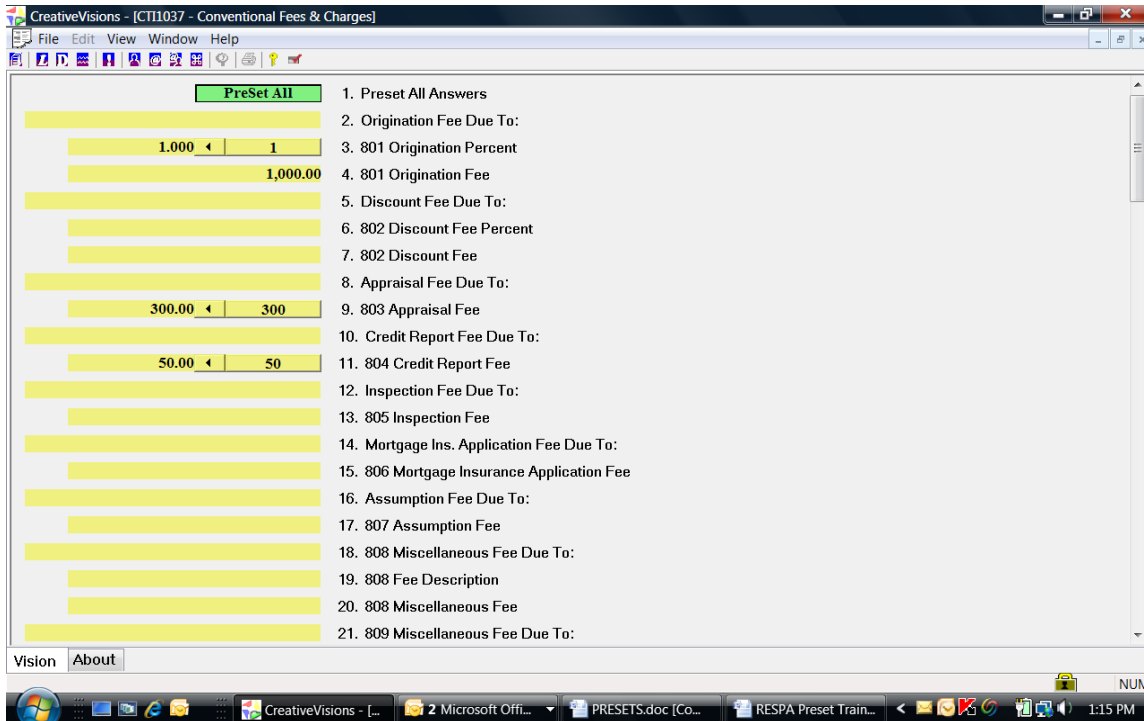

Folder	History	Setup	Event	Status	Log
			I would like to buy a home. (1043)		0 Items
			CTI1041 - Purchase Preset	Started - 12/28/09	0 Items
			CTI1036 - Real Estate Program	Started - 12/28/09	0 Items
			CTI1038 - Taxes & Insurance	Started - 12/28/09	0 Items
			CTI1038 - Prepaid Finance Charge	Started - 12/28/09	0 Items
			CTI1429 - HOEPA Fee Presets		0 Items
			CTI1055 - Escrowed	Started - 12/28/09	0 Items
			CTI1102 - Asset and Liability Pres	Started - 12/28/09	0 Items
			CTI1200 - Standard HUD Descrip	Started - 12/28/09	0 Items
			Conventional Fixed (1201)		0 Items
			CTI1171 - Conventional Monthly F	Started - 12/28/09	0 Items
			Conventional (1102)		0 Items
			CTI1037 - Conventional Fees & C	Started - 12/28/09	0 Items
			CTI1451 - New RESPA Conventic		0 Items
			CTI9006 - Conventional Presets	Started - 12/28/09	0 Items
			A Payment and Ratios (1073)		0 Items
			Escrowed (1150)		0 Items
			CTI1403 - Escrow Presets	Started - 12/28/09	0 Items
			Conventional Payment and F		0 Items

The bottom of the screen shows the Windows taskbar with the system tray displaying the time as 11:08 AM and the date as 12/28/09.

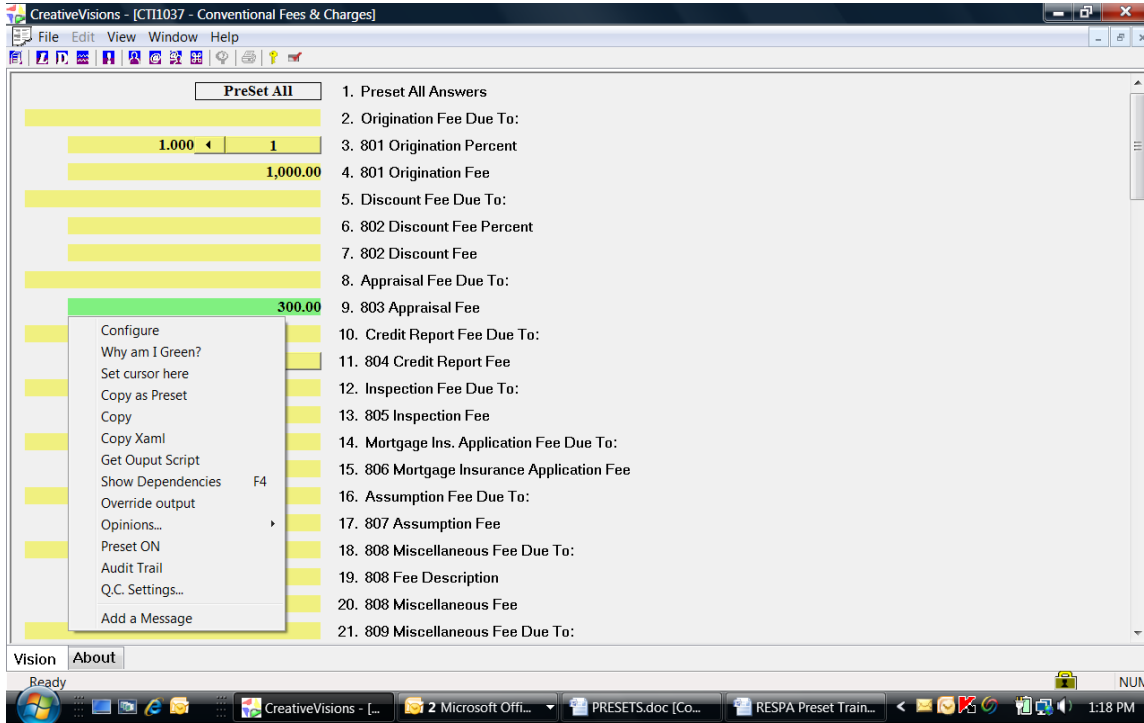

Load the Preset Vision full screen by double clicking on the icon to the left of the vision number.

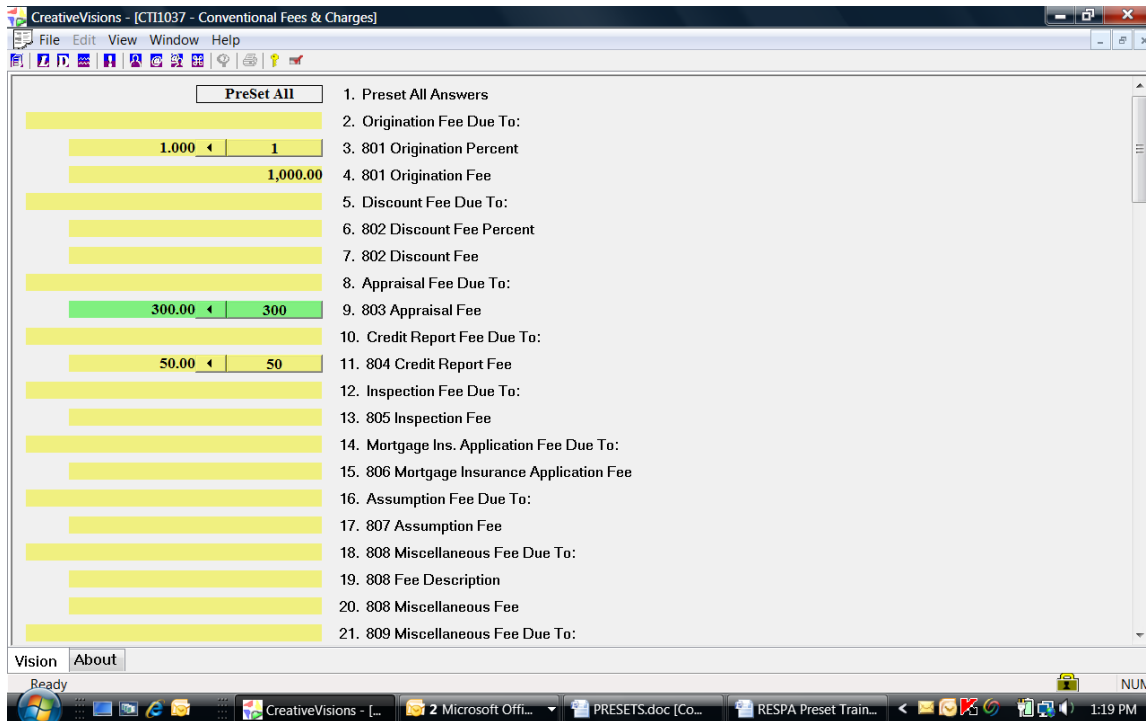

The example below shows CTI1037 - Conventional Fees & Charges Presets.

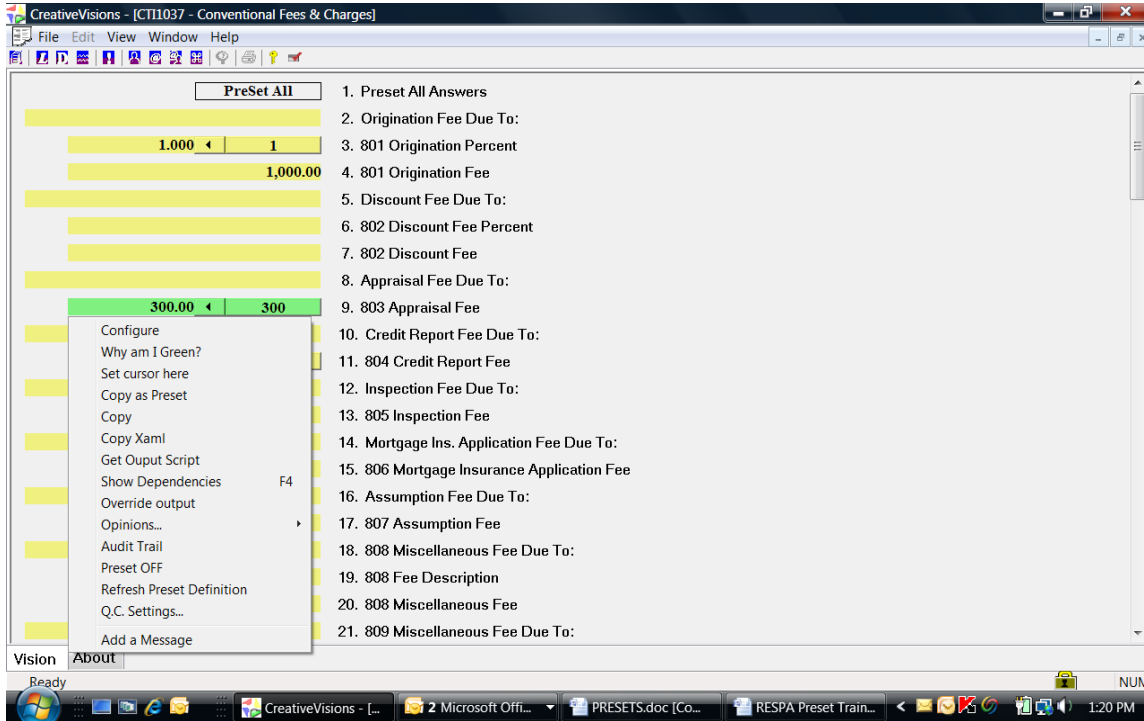

To turn a Preset on, position your cursor on the control which displays the answer you would like to preset. Right click on the control to display a list of choices, then click on 'Preset ON' to set the Preset.

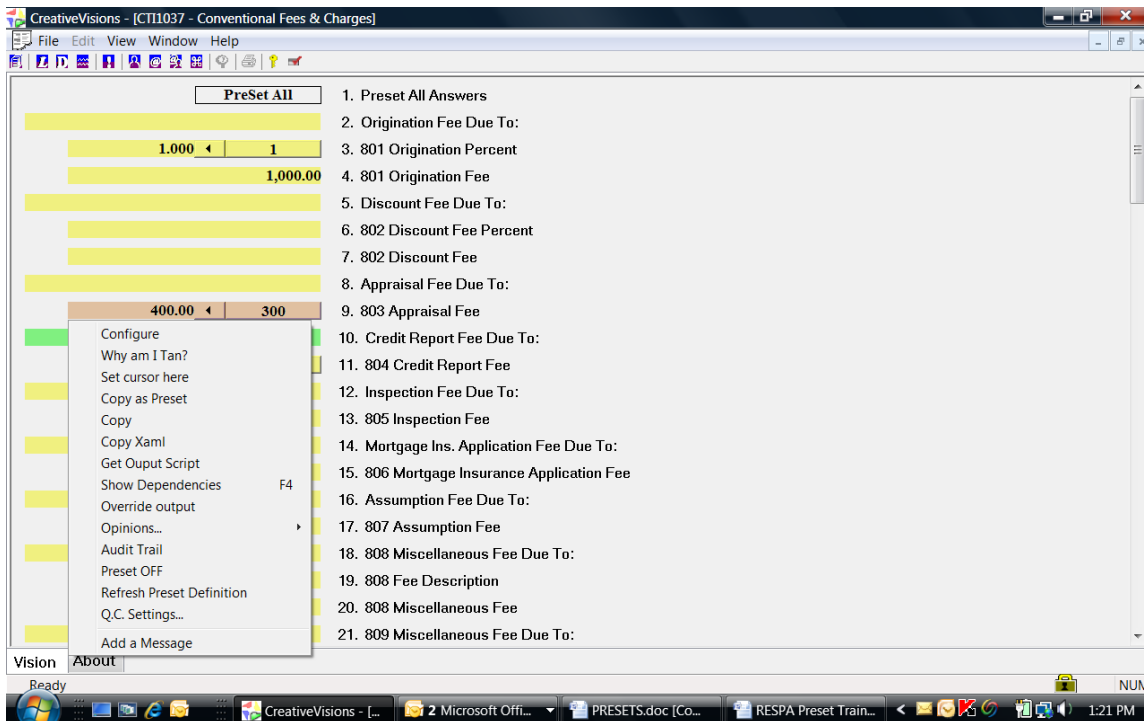

The Preset displays as a preset bar with the answer, and an arrow points left to the answer in your Test Loan.

To turn a Preset off, right click on a control to display a list of choices, then click on 'Preset OFF' to turn the Preset off.

To change a Preset answer to a different answer, click on the field to the left of the arrow to change the answer of the question in your loan. After tabbing to the next question, right click on the control to see the list of choices and click on 'Refresh Preset Definition'.

PRESET VISIONS - HOW THEY ARE ORGANIZED

Understanding where to Preset an answer is very important. Presetting basic answers such as Fees and Descriptions are simple but each situation is different and you may come across a situation that is more complicated and may need the advice or assistance from your Service Representative.

Preset Visions load for specific conditions and will not be in the list of Preset Visions unless those conditions are met. That is why it is suggested that training loans be created for each type of loan and used for doing Presets. You can then change the loan to meet the conditions you need to access the appropriate Preset Visions.

For example you must be in a Conventional loan to see the 'Conventional Presets' and 'Conventional Fee Presets', or be in an FHA loan to see the 'FHA Presets' and 'FHA Fee Presets'. To modify Investor Presets, the training loan will need to have the Investor selected in "Final Ownership" to see that Investor's Presets and Investor's Fee Presets.

Program Presets:

Program Presets contains main or 'corporate' questions that are needed or used for specific types of loans.

CTI1036 Real Estate Program -

The Real Estate Program Preset loads for Purchase, Refinance, Construction-Perm, Second Mortgage, and Bridge loans.
