

# Submit XML

If you are not already logged in to <https://webbankbox-beta.azurewebsites.net/> click "Log in WBB" in the upper right corner. To add a file previously saved from your LOS Software application, click on the "+" icon next to the file search.

From the "Add Existing Data File to WebBankBox" dialog box, you can either click on "Choose Files" to browse and select the XML previously saved or, copy and paste the entire XML.

With either the file selected, or contents pasted, click "Upload Data File".

The upload will add the file to WBB Interchange, however it will not yet be submitted to Freddie Mac. (Note: that if this were a re-submission, you would still see previous response messages. You must still click to submit to re-send.)

**Submit to Freddie**

Click "Submit to Freddie".

When the Status: is Submitted, wait about 10 seconds before clicking to "Check Response" to see if a reply is ready, and to receive feedback if so.

When a response is received, the Status will change to "Completed".

Status: Completed

Clicking on the "Errors" tab will provide more insight about the feedback response if needed, as well as provides the LP Key, Transaction ID and LP Identifiers.

<b>BORROWER NAME:</b>	<b>LOAN APPLICATION NUMBER:</b>	<b>LP AUS KEY:</b>
PATRICK FREDDIE	WBB86618	A0220937
<b>AUS TRANSACTION NUMBER:</b>	<b>LOAN PROSPECTOR ID:</b>	<b>TRANSACTION ID:</b>
1321653	L417897	T617949

Click "Close" in the upper right side, to close out of the feedback certificate or response messages.

**Close**

If changes will need to be made to the file: Before resubmitting, enter the identifier numbers provided by Freddie Mac on to either the FocusAgent or CreativeVisions form 27075 to maintain tracking of the same file before re-generating the XML and re-submitting.
