

Ordering a Flood Determination

Task number 22347 is used for ordering Flood Determinations from ServiceLink National Flood.

Please insert this task into your list of forms. Instructions for inserting forms can be found at: [How do I insert forms?](#)

To submit a request, click to highlight task number 22347, and on the right-side of the screen, right-click and select "Insert"

"Insert" adds an order for this loan file. Double-click on the icon for the order to launch the Flood Determination XML Upload.

Item	Start Date	Status
11426 Marathon Ln -Flood Cert Order		

Enter the number assigned to your company by the flood determination. (If you would like help presetting the "Provider's Account ID", contact your CreativeVisions Customer Support Representative.)

Review the borrower and property information that will be sent from your loan file, and enter a Flood Product Code from the table on page 2. (The Flood Product Code can also be preset, if you typically order the same product for every loan.)
